Marian Keyes begins Watermelon with a rather inauspicious romantic opening when the heroine's husband leaves her for Denise from the flat downstairs the day their first child is born. Claire, the deserted wife and mother, returns to her family in Dublin and, after going through the required stages of "Loss, Loneliness, Hopelessness and Humiliation", begins to feel much better--so much better that when James tries to win his way back into her affections, he gets more than he bargained for.
